

COURSE SYLLABUS

Industrial Placement Course in Built Environment, 7.5 credits

Industrial Placement Course in Built Environment, 7.5 högskolepoäng

Course Code:	TIES24	Education Cycle:	Second-cycle level
Confirmed:	Nov 07, 2024	Disciplinary domain:	Technology
Valid From:	Aug 31, 2026	Subject group:	Building Technology
		Specialised in:	A1F Second cycle, has second-cycle course/s as entry requirements
		Main field of study:	Built Environment

Intended Learning Outcomes (ILO)

On completion of the course the student shall:

Knowledge and understanding

- demonstrate comprehension of the difference between the experience of practical work and the theoretical knowledge acquired earlier in the programme

Skills and abilities

- demonstrate the ability to apply knowledge acquired through their education in professional work
- demonstrate the ability to describe, analyze, and reflect on the results of their work experience and to present them orally and in writing to the client and at the university

Judgement and approach

- demonstrate an understanding of their future professional role and the responsibility for sustainability that comes with it
- demonstrate insight into their future professional role and the responsibility for sustainability that comes with it

Content

The course aims to provide students with the possibility for a professional approach to the exercise of their future profession.

The course includes the following elements:

- Joining and contributing knowledge to an ongoing project
- Witnessing and participating in an ongoing product development process
- Participating in professional practice relevant to the main subject area
- Planning and delivering professional development for the client's staff
- Written and oral reflection upon the experience of professional practice, and its documentation

Type of instruction

Students work individually at the assigned company and/or via digital platform; hands-on professional practice in the workplace; and final report, written and oral, on campus.

An application stating the company where the internship is going to be conducted and the main tasks, assignments, and deliveries must be submitted to the course responsible and examiner for approval. The

internship will be approved only if the company, tasks, assignments, and deliveries are evaluated as relevant for the program and the student's educational and professional growth.

Language of instruction is English.

Entry requirements

At least 30 credits in the Master's program should be approved.

Examination and grades

The course is graded Pass (G) or Fail (U).

Some course components, such as lectures, labs, or seminars, may be mandatory due to their unique and non-repeatable nature.

Registration of examination:

Name of the Test	Value	Grading
Internship	6 credits	G/U
Presentation	1.5 credits	G/U

Course literature

Please note that changes may be made to the reading list up until eight weeks before the start of the course.

Guiding documents and template will be available via Canvas.
