Innehåll

The course aims to provide students with the possibility for a professional approach to the exercise of their future profession.

The course includes the following elements:

- Joining and contributing knowledge to an ongoing project
- Witnessing and participating in an ongoing product development process
- Participating in professional practice relevant to the main subject area
- Planning and delivering professional development for the client's staff
- Written and oral reflection upon the experience of professional practice, and its documentation

Undervisningsformer

Students work individually at the assigned company and/or via digital platform; hands-on professional practice in the workplace; and final report, written and oral, on campus.

An application stating the company where the internship is going to be conducted and the main tasks, assignments, and deliveries must be submitted to the course responsible and examiner for approval. The internship will be approved only if the company, tasks, assignments, and deliveries are evaluated as relevant for the program and the student's educational and professional growth.

Undervisningen bedrivs på engelska.

Förkunskapskrav

At least 30 credits in the Master's program should be approved.

Examination och betyg

Kursen bedöms med betygen Underkänd eller Godkänd.

Some course components, such as lectures, labs, or seminars, may be mandatory due to their unique and non-repeatable nature.
