

COURSE SYLLABUS

Industrial Placement Course in Computer Engineering, 15 credits

Näringslivsförlagd kurs i Datateknik, 15 högskolepoäng

Course Code:	T1NKID	Education Cycle:	First-cycle level
Confirmed:	Feb 01, 2025	Disciplinary domain:	Technology
Valid From:	Jan 18, 2027	Subject group:	Computer Technology
		Specialised in:	G2F First cycle, has at least 60 credits in first-cycle course/s as entry requirements
		Main field of study:	Computer Engineering

Intended Learning Outcomes (ILO)

On completion of the course the student shall:

Knowledge and understanding

- show familiarity with relations in work life, especially the relationship between employer and employee

Skills and abilities

- demonstrate the ability to apply knowledge acquired in education in practical work
- demonstrate the ability to describe, analyze and document the practical work in written form
- demonstrate the ability to present and discuss information, problems and solutions related to the workplace

Judgement and approach

- demonstrate the ability to reflect on need for knowledge and skills development from the viewpoint of experiences in practical work
- demonstrate the ability to reflect on how practical experiences are related to theoretical knowledge in the program
- demonstrate the ability to evaluate with respect to relevant diversity and equality aspects
- demonstrate the ability to evaluate with respect to relevant sustainability and work environment aspects.

Content

In the course students apply knowledge from the program's previous courses in practical work at a company, the public sector, or organization and gain thereby insights that will be of benefit in following courses. The course comprises an introductory session, documentation of the chosen work, as well as a final presentation.

The course includes the following elements:

- Introduction dealing with the relationship between employer and employee
- The student follows and contributes knowledge in the practical work relevant for the education's technical orientation
- The student analyzes and documents the ongoing work
- The student documents in a written report analyses and practical experiences

Type of instruction

Introduction lecture, supervision and final seminar.

The course is executed primarily at a company, a place in the public sector or another organization. The student works in collaboration with colleagues and possibly other students.

Language of instruction is Swedish but English may occur.

Examination and grades

The course is graded Pass (G) or Fail (U).

The final grade will only be issued after satisfactory completion of all assessments.

Registration of examination:

Name of the Test	Value	Grading
Internship	12 credits	G/U
Assignment	2 credits	G/U
Seminar	1 credit	G/U

Other information

It is the student's responsibility to find a placement in a company, public administration or organization.

Course literature

Please note that changes may be made to the reading list up until eight weeks before the start of the course.

The teaching platform contains instructions and relevant material.
