### Intended Learning Outcomes (ILO)

After a successful course, the student shall:

Knowledge and understanding

- demonstrate comprehension of the difference between the experience of practical work and the theoretical knowledge acquired earlier in the programme

Skills and abilities

- demonstrate the ability to apply knowledge acquired through their education in professional work
- demonstrate the ability to describe, analyze, and reflect on the results of their work experience and to present them orally and in writing to the client and at the university

Judgement and approach

- demonstrate an understanding of their future professional role and the responsibility for sustainability that comes with it
- demonstrate insight into their future professional role and the responsibility for sustainability that comes with it

### Contents

The course aims to provide students with the possibility for a professional approach to the exercise of their future profession.

The course includes the following elements:

- Joining and contributing knowledge to an ongoing project
- Witnessing and participating in an ongoing product development process
- Participating in professional practice relevant to the main subject area
- Planning and delivering professional development for the client's staff
- Written and oral reflection upon the experience of professional practice, and its documentation

### Type of instruction

Students work individually at the assigned company and/or via digital platform; hands-on professional practice in the workplace; and final report, written and oral, on campus.

An application stating the company where the internship is going to be conducted and the main tasks, assignments, and deliveries must be submitted to the course responsible and examiner for approval. The internship will be approved only if the company, tasks, assignments, and deliveries are evaluated as relevant for the program and the student's educational and professional growth.

The teaching is conducted in English.

### **Prerequisites**

At least 30 credits in the Master's program should be approved.

### **Examination and grades**

The course is graded Fail (U) or Pass (G).

Registration of examination:

| <b>Name of the Test</b> | <b>Value</b> | <b>Grading</b> |
|-------------------------|--------------|----------------|
| Internship              | 6 credits    | U/G            |
| Presentation            | 1.5 credits  | U/G            |

### **Course literature**

The literature list for the course will be provided 8 weeks before the course starts.

Guiding documents and template will be available via Canvas.
